

Grant application awarded 2002

Subcellular Localization of the active secretase complex

€87 000

Awarded to Wim Annaert / Judith Klumpermann

VIB Department of Molecular and Developmental Genetics, Laboratory for Membrane Trafficking, Catholic University of Leuven/ University of Utrecht (cross border project BE/NL)

2002-2004

Identification of novel genes for Alzheimer dementia and related disorders

€87 000

Awarded to Christine Van Broeckhoven

VIB Department of Molecular Genetics, Neurodegenerative brain disease Group, University of Antwerp

2002-2004

Function and regulation of NO-cGMP signaling transduction in cholinergic neurons

€37 000

Awarded to Fred van Leuven / Jan de Vente

VIB Experimental genetics Group, Center for Human Genetics, Catholic University of Leuven / University of Maastricht (cross border project BE/NL)

2002-2004
